

4" wide x 5" tall insert

Imprint Area 3.65" wide x 3" tall

### *Plant This Seed Paper!*

The enclosed shape is handmade from recycled, biodegradable fibers and embedded with seeds. When ready to plant, soak it in water, then cover it with 1/8" of fine soil. Plant indoors in a pot placed in a sunny window or directly outdoors when the weather is warm. Keep the soil evenly moist until the seeds germinate in approximately three weeks. The paper will recycle into the soil, and with proper care the embedded seeds will grow into colorful wildflowers!
